

Vision 2030

MISSION

To harness our expertise, global network, and strategic partnerships in driving business growth and creating a worldwide positive impact.

VISION

To be the leading sustainable global corporation, fostering progress and prosperity.

VALUES

Integrity, Excellence, Sustainability.

STRATEGIC PILLARS

Diversify and Expand

TIG shall venture into high-growth arenas like renewable energy, healthcare, technology, and other emerging industries. Extend our global reach to promising markets in Asia, the Middle East, Africa, and Latin America.

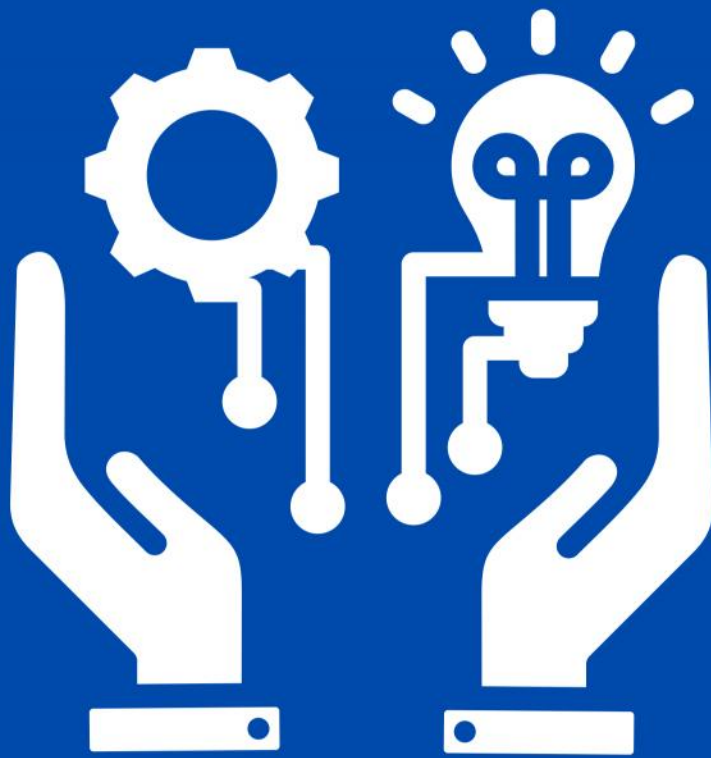

Enable Innovation

Establish a hub for innovation, creating solutions harnessing AI, IoT, robotics, and other advanced technologies. Equip our workforce with future-forward skills such as data analytics and digital marketing. Empower startups through a dedicated corporate venture capital fund.

Drive Sustainability

Incorporate renewable energy sources to supply 50% of our operational needs. Employ practices that realize a zero-waste circular economy. Generate social impact through CSR initiatives centered on education, healthcare, and the environment.

STRATEGIC PILLARS

Develop Human Capital

Cultivate a skilled workforce via training programs and a global leadership college. Enforce diversity and inclusion policies to foster a collaborative culture. Encourage employee wellbeing through health, safety, and wellness initiatives.

Enable Good Governance

Adhere to high standards of corporate governance, ethics, and transparency. Adopt an ESG framework for long-term sustainable value creation. Encourage stakeholder engagement through open communication and feedback.

KEY INITIATIVES

Sustainable Energy Solutions

By 2030, we endeavor to diversify our energy portfolio, exploring renewable energy sources and investing in innovative technologies to reduce carbon emissions. Our focus is on creating sustainable energy solutions that contribute to a cleaner, greener future.

Innovation and Technology

We will persistently harness emerging technologies like artificial intelligence, blockchain, and smart solutions. These will drive efficiency, transparency, and innovation across our businesses, enabling us to stay ahead of the curve, tackle emerging challenges, and create new growth opportunities.

Responsible Investments

Our commitment lies in responsible investments that spur economic growth, social development, and environmental sustainability. We will foster strategic alliances with organizations sharing our ethos, supporting initiatives that generate lasting value for our stakeholders and make a positive impact on the communities we operate in.

Global Partnerships

We will persistently harness emerging technologies like artificial intelligence, blockchain, and smart solutions. These will drive efficiency, transparency, and innovation across our businesses, enabling us to stay ahead of the curve, tackle emerging challenges, and create new growth opportunities.

Talent Development and Empowerment

We acknowledge the vital role of human capital in realizing our vision. By 2030, we aim to invest in our talent, offering training, mentorship, and growth opportunities to enhance their skills and expertise. This will empower our teams to excel, drive innovation, and contribute significantly to our goals.

Corporate Social Responsibility

TIG is committed to generating positive social and environmental impacts across its operations. We will continue to support initiatives that promote education, healthcare, and environmental conservation, fostering a culture of sustainability and social responsibility within our organization and beyond.

DIGITAL TRANSFORMATION

By leveraging advanced technologies like AI, blockchain, and big data analytics, we aim to enhance our operations, improve efficiency, and create seamless customer experiences. This digital transformation will optimize our supply chain, streamline processes, offer innovative solutions to our clients, and reinforce TIG's position as an industry leader.

LINK TO THE WORLD

By 2030, TIG envisions itself as a globally recognized leader in sustainable energy solutions, responsible investments, and innovative technologies, significantly contributing to global sustainable development goals. Our unwavering commitment to sustainability, social responsibility, and technological advancement will ensure a brighter future for generations to come, as we continue to expand our presence and create value for our stakeholders.
