MISSION

To help our clients to pursue commercial growth and expansion in the world. Link to the world.

VISION

To become a leading corporate group all over the world, providing high-quality products and services that meet client needs and expectations.

VALUES

Client-centric, innovation-driven, excellence-oriented, integrity-based, collaboration-bridged, responsibility-guided.

BRIEF HISTORY

TIG Oil & Gas Trade Company was founded in 2014 with a vision to become a global leader in the downstream sector of the oil and gas industry. From its humble beginnings, the company started as a small trading firm, focusing on the distribution and marketing of petroleum products.

In the early years, the company established strong relationships with suppliers and customers, building a reputation for reliability and integrity. Through strategic partnerships and continuous expansion, Downstream Oil & Gas Trade Company quickly grew its presence in the industry, expanding its reach across national and international markets.

As the company expanded, it recognized the importance of sustainability and responsible business practices in the oil and gas industry. It made a commitment to prioritize environmental stewardship, invest in cleaner energy alternatives, and promote sustainable development throughout its operations.

Over the years, the company diversified its product portfolio to meet the evolving needs of its customers. It expanded its range of petroleum products, including gasoline, diesel, jet fuel, lubricants, and specialty chemicals. The company also invested in state-of-the-art infrastructure, including storage facilities, transportation networks, and blending plants, to ensure efficient and reliable supply chain operations.

In response to changing market dynamics and emerging technologies, TIG Oil & Gas Trade Company embraced innovation and digitalization. It implemented advanced technologies and data analytics to optimize operations, enhance customer experiences, and improve efficiency across its value chain.

Today, TIG Oil & Gas Trade Company is recognized as a global leader in the downstream sector, with a strong presence in multiple countries. The company continues to adapt to the evolving energy landscape, exploring opportunities in renewable energy, biofuels, and other sustainable alternatives. It remains committed to delivering high-quality products, maintaining stringent quality control measures, and providing exceptional customer service.

Through its unwavering commitment to sustainability, responsible business practices, and continuous innovation, TIG Oil & Gas Trade Company has positioned itself as a trusted partner in the oil and gas industry, contributing to the growth and development of the global energy sector.

REGIONAL PRESENCE

Triangle International Group has established a formidable presence in various regions worldwide. The group's extensive global connections equip it to adeptly handle a myriad of international business needs. TIG's dedication to growth and expansion is reflected in its strategic efforts to widen its global reach and influence. The group has built a solid infrastructure that enables effective communication and collaboration with partners, clients, and stakeholders from diverse geographical locations. TIG acknowledges and respects the distinctiveness of each country and region it operates in, thereby successfully maneuvering through the intricacies of international business.

Triangle International Group also places high value on cultivating robust relationships with its international partners. By fostering these alliances, the group promotes trust, cooperation, and shared growth.

Triangle International Group's global footprint, comprehensive network, and unwavering commitment to growth make it a dependable partner for international business collaborations. Its relentless pursuit of excellence and innovation ensures its leading position in the ever-evolving global marketplace.

CEO's MESSAGE

It is with immense pleasure that we extend our warmest welcome to you at TIG. As a prominent provider of energy, industrial, trade, capital, and artificial intelligence solutions, we have consistently demonstrated our commitment to excellence and our dedication to offering sustainable, client-oriented solutions.

Here at TIG, we consider our clients to be our partners. With an emphasis on building long-term relationships, we strive to deliver value-added information and services that transcend mere supply. Our clients benefit from our smart engineering solutions and AI-driven technology, designed specifically to cater to their distinctive requirements.

The TIG team comprises highly qualified and passionate individuals, whose extensive knowledge and expertise are invaluable assets in our pursuit of excellence. Their commitment has empowered us to achieve our goals and surpass our clients' expectations.

As we pursue growth and expansion, we maintain our steadfast commitment to our core values: quality, innovation, relationship building, and sustainability. We are confident that our continued success will be propelled by our unwavering dedication to these values and our focus on providing our clients with the finest possible solutions.

Thank you for your enduring support and trust in TIG.

*Sincerely,
Xiao Lu*

INDUSTRIAL & ENERGY

TIG Industrial & Energy (I&E) provides leading solutions and supply of equipment and materials in Power, Industrial Projects, Machinery as well as Oil & Gas with services ranging from sustainable solutions to utility companies and industrial sector as a whole, through smart engineering and value-added services, to Products, Services, Projects, and Manufacturing.

TIG Oil & Gas provides a range of specialized products and services to the Oil, Gas and Petrochemical industries. It is recognized across the region for bringing customized value-added solutions through a well-developed network of reputed manufacturers worldwide and extensive relationships with international associates, supported locally by highly qualified multinational engineering staff.

TIG Power & Industrial Projects (P&IP) offers engineered products and services. It provides sustainable solutions to utility companies and the GCC industrial sector as a whole, through smart engineering and value-added services, and is a leading vendor to major utility companies, refineries, petrochemical companies and general industries right across the GCC region

RENEWABLE ENERGY

At Triangle International Group (TIG), we are at the forefront of the renewable energy sector, with investments spanning across a diverse range of sources such as solar, wind, hydroelectric, geothermal, and bioenergy. We are steadfast in our mission to harness these renewable resources, aiming to create efficient, sustainable energy solutions that contribute significantly to global sustainability goals. Our commitment to research and development drives innovation and maximizes efficiency, reinforcing our role as a responsible and forward-thinking global leader. Beyond traditional renewable energy sources, we are broadening our horizons and expanding our energy portfolio to include cutting-edge technologies in the domains of Liquefied Natural Gas (LNG), hydrogen, and ammonia. This dedication to diversification and expansion underscores our adaptability and relentless pursuit of sustainable and efficient energy solutions, demonstrating our commitment to environmental stewardship, sustainable development, and business growth.

ENERGY

OIL & GAS

With 15 years under Oil Trade company as our group associate, we at TIG have managed to close deals and also obtain an official Chinese buyer mandate. Our level is pretty strong in terms of the trade business. We are looking to expand our horizon in terms of suppliers that can fill up buyers requests. We also have our own supply in Malaysian origin along with Russia Gazprom, Lukoil and other major leads. In case you're also looking for suppliers & if you have buyers too, it can be mutual collaboration and we are looking forward to hear back on the next steps. We are Title holders under Oil Trade and in addition hold genuine mandates.

- GASOLINE ■

CAPITAL, TREASURY & CORPORATE FINANCE

TIG Capital was formalized in 2015. The mandate, then and now, is to manage the investment aspects of the Group's expansion and to forge business alliances with established global partners that seek to enter the Gulf region's and Asia's dynamic markets. Since then, TIG Capital has been a key driver for the successful development of a host of strategic partnerships with prominent regional and global companies.

The division targets large-scale projects of an existing or prospective business-to-business supply chain, and actively seeks businesses that are relevant to the region's economy. The team is currently pursuing ventures in the fields of healthcare; oil field services; petrochemicals and diversified business support services.

Cultivating robust partnerships with a broad base of asset managers and entrepreneurs gives TIG Capital access to market insight, allowing it to identify opportunities that can be leveraged to improve the operations of both new and established businesses connected with the TIG Group.

Decades of experience in regional markets has given TIG Capital the discernment to offer a wealth of value-added benefits to joint venture and investment partners. These include continuous monitoring of performance; introductions to new customers; sourcing locally available resources and materials; ensuring legal and regulatory compliance; reviewing feasibility of additional projects and expansions, as well as exploring opportunity integration for local manufacturing.

INTERNATIONAL PROJECTS

TIG Development (TIGD) is an International Project Development Company specialized in Infrastructure, Energy and Real Estate Development, and Project Finance.

TIG Development has developed infrastructure, energy and real estate projects throughout the Middle East and Asia forming Strategic Alliances with Major International Corporations and Financial Institutions, leading Consortiums to Plan, Execute and Finance projects on an Engineering, Procurement, Construction & Finance (EPC+F & BOT) Basis.

Over the passage of time, TIGD has diversified its activities into development & Finance of Energy, Infrastructure, and Real Estate projects in different countries. Mainly, in the form of project implementation on Engineering, Procurement, Construction & Finance (EPC+F & BOT) basis in the Middle East and Asia through alliances with major international groups.

INTERNATIONAL TRADE

TIG makes trade happen. And we make it our mission to do that responsibly. We deploy infrastructure, skills and our global network to move physical commodities from places they are plentiful to where they are most needed.

We have been connecting our customers to the global economy for a quarter of a century. We grow prosperity by advancing trade.

At the heart of global supply, TIG connects the world with the vital resources it needs. Through our Oil and Petroleum Products, Metals and Minerals, and Power and Renewables divisions, we deploy infrastructure, skills and a global network to move commodities from where they are plentiful to where they are needed most, forming strong relationships that make supply chains more efficient, secure and sustainable.

We are one of the world's leading marketers of physical commodities. We physically source commodities and products from our global supplier base – and sell them to customers all over the world.

This means transporting commodities by sea, rail and truck, storing them, processing them, and delivering them to the time, quality and specification that our customers need. Through these marketing activities, we set ourselves apart from companies who focus mainly on commodity production.

MARINE SERVICES

Triangle International Group's (TIG) Shipping Division is a global powerhouse, offering comprehensive logistics support across 41 countries via land, air, and sea. This division boasts its own marine services and container lines, reinforcing its capacity to meet diverse logistics demands. As the leading regional tanker agent and offshore service provider, TIG Shipping represents numerous global shipping owners, operators, and charterers. We provide tailored financial and port-call management services on a regional, trans-regional, or global scale, aligning with individual corporate requirements.

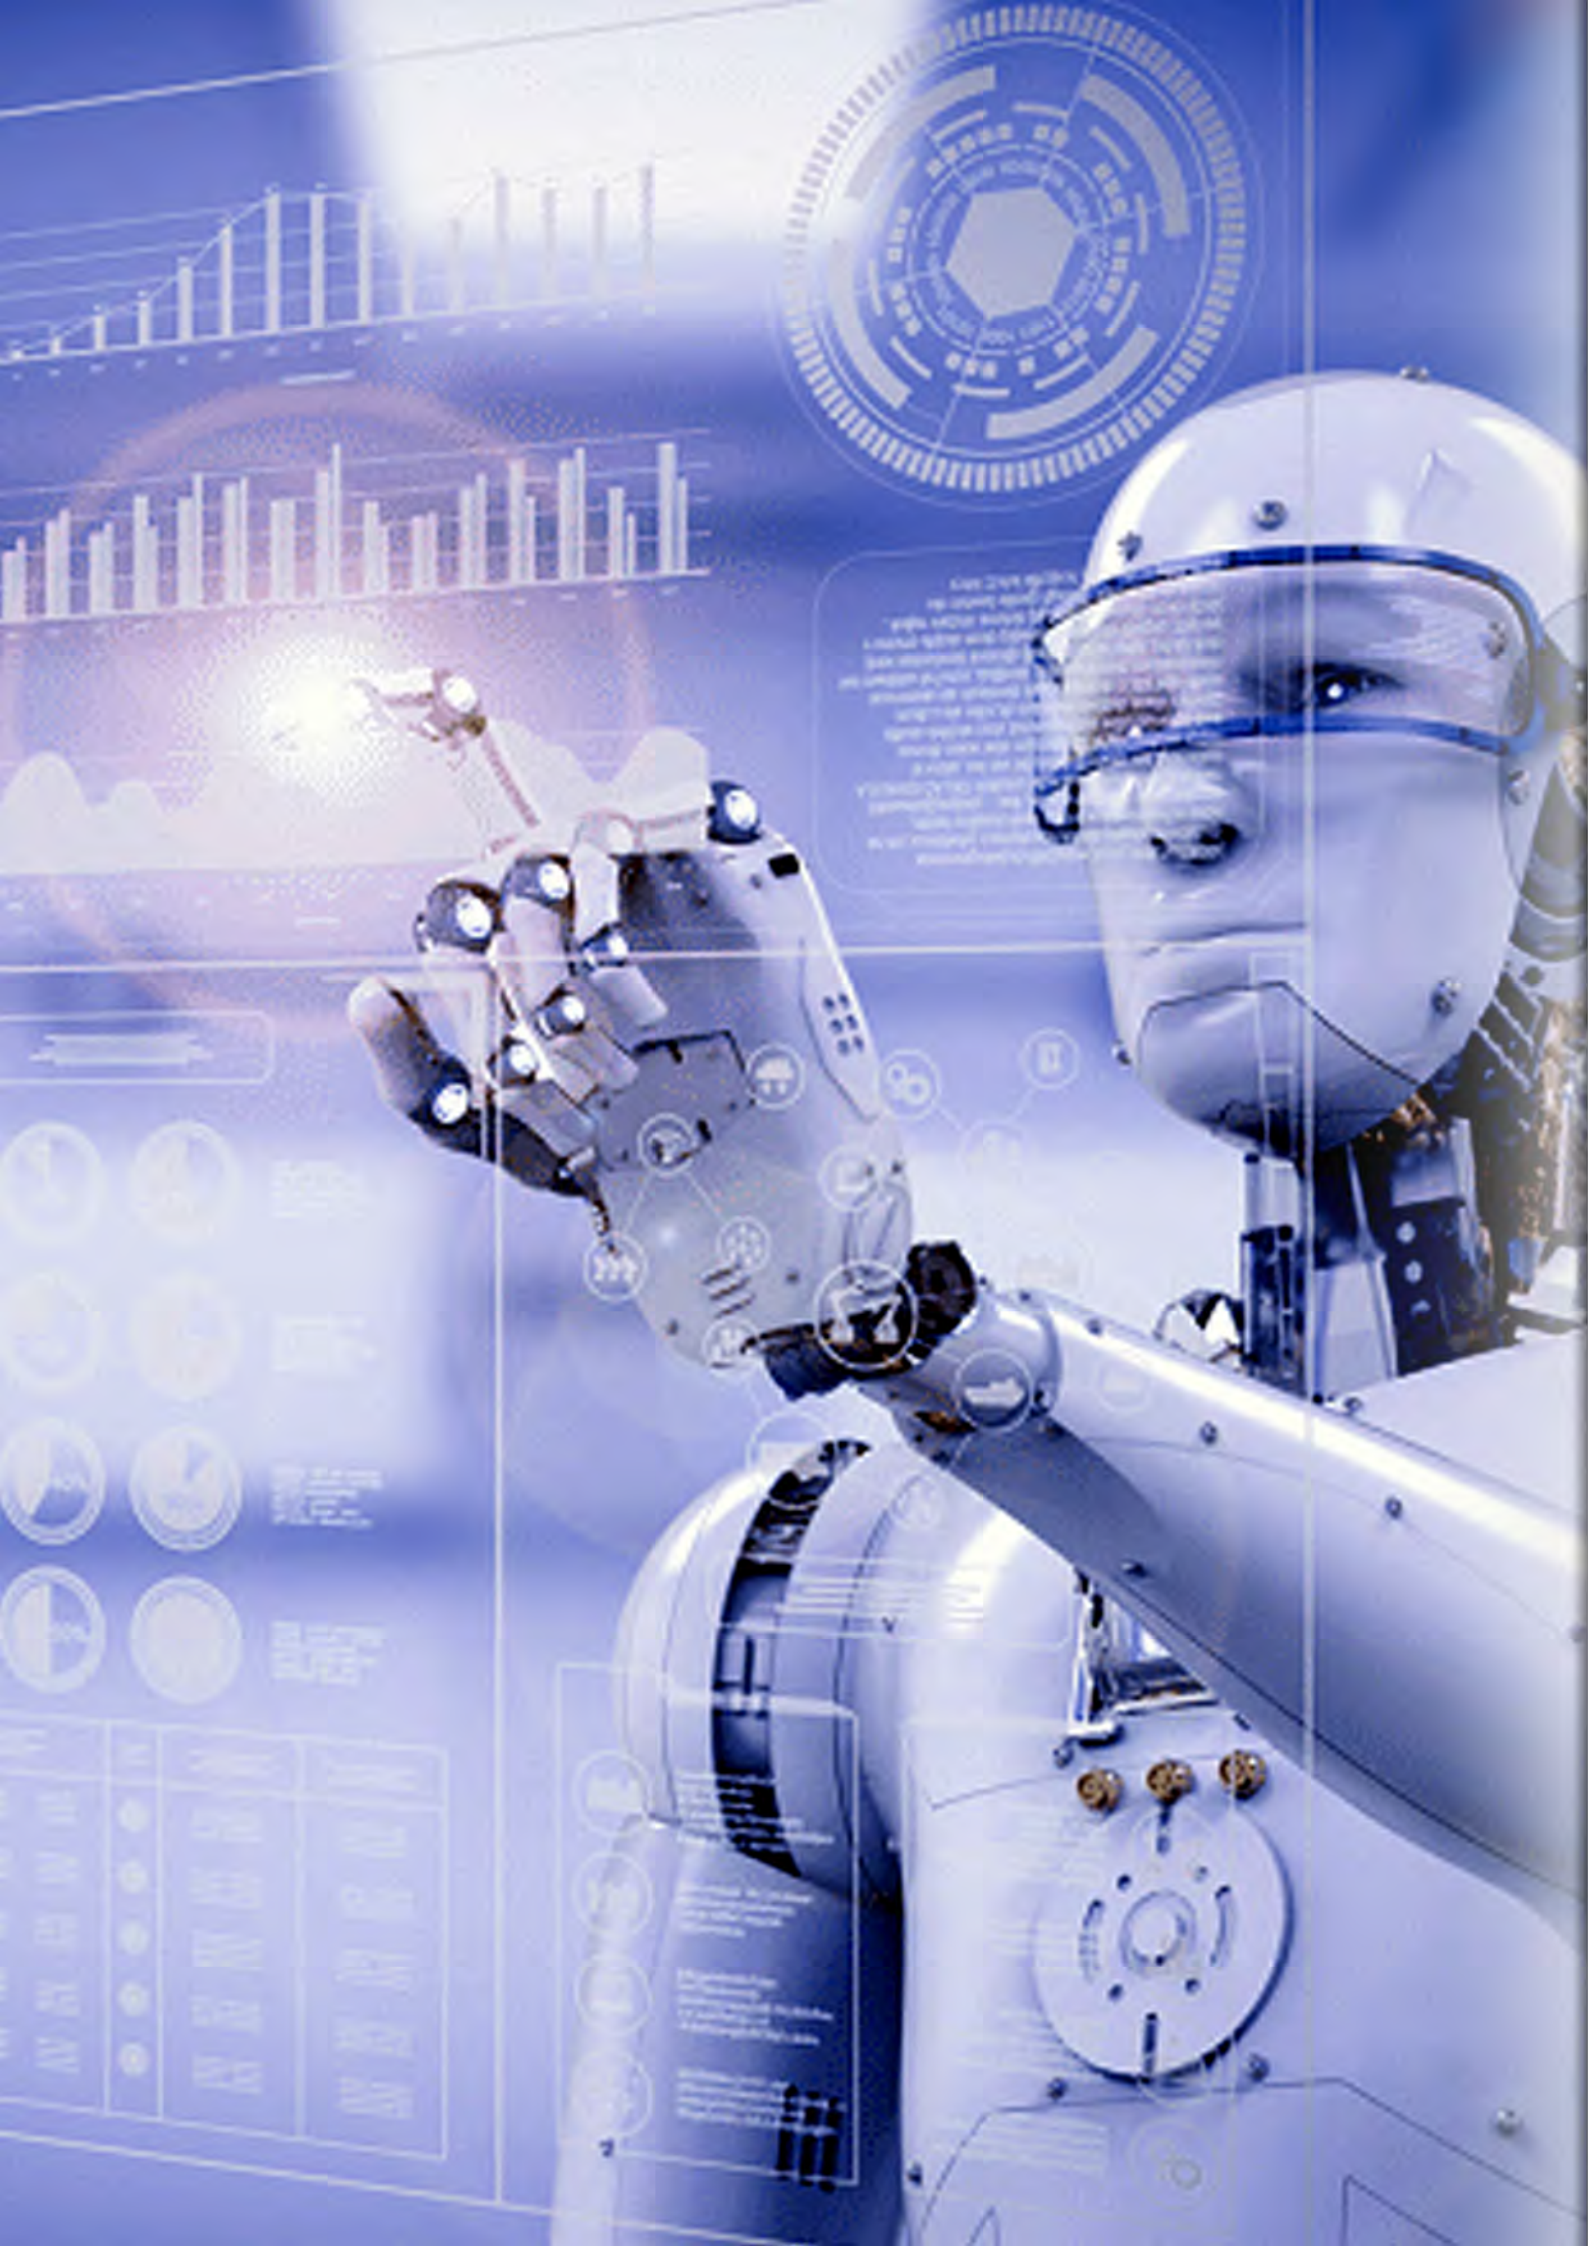

Our Shipping and Chartering Division serves as a crucial link for our in-house oil, metals, and minerals traders, ensuring competitive and reliable freight services. Moreover, our Wet and Dry Freight desks operate as independent profit centers. Our operations are strategically managed from key regional hubs located in Athens, Geneva, Houston, Lima, Montevideo, and Singapore, ensuring round-the-clock coverage of freight and physical commodity markets. Furthermore, all post-fixture operations, including issuing voyage orders, stowage plans, negotiations with port agents, and handling demurrage claims, are centrally managed from our Singapore office. This strategic setup allows us to deliver efficient, reliable, and tailored logistics and shipping solutions to our global partners.

TIG has a strong focus on safety and compliance. Its operations adhere to international safety standards and regulations, and it has robust measures in place to ensure the security of its shipments. TIG also provides comprehensive training to its staff to ensure they are equipped to handle any situation that may arise during the shipping and logistics process.

TIG's Logistics and Shipping Division is backed by a skilled and experienced team that is committed to providing exceptional service. The team works closely with clients to understand their unique needs and deliver customized solutions. This customer-centric approach, combined with TIG's global reach and commitment to innovation, makes it a trusted partner for businesses around the world.

To bolster its global reach and credibility, TIG's Logistics and Shipping Division is associated with and registered under several esteemed international networks. These include the AJA (Anglo Japanese American Registrars), UKAS (United Kingdom Accreditation Service), and Freightnet, which are all renowned for their rigorous standards and extensive global networks. Moreover, TIG is a proud member of the 5 Continent Alliance, a global network of independent freight forwarders and logistics specialists. This affiliation allows TIG to extend its services across continents, providing seamless and efficient logistics solutions to its clients worldwide. Additionally, TIG is registered with FIATA (International Federation of Freight Forwarders Associations), the largest non-governmental organization in the field of transportation. This affiliation underlines TIG's commitment to adhering to international standards and regulations in logistics and freight forwarding. These memberships and registrations underscore TIG's commitment to excellence, reliability, and global connectivity in its logistics and shipping operations.

ADVANCED TECH & ARTIFICIAL INTELLIGENCE

Triangle International Group (TIG) is a global leader in providing innovative and cutting-edge solutions in artificial intelligence (AI) for various industries and sectors. TIG's AI division leverages its extensive expertise and network to deliver customized and scalable AI products and services that meet the needs and challenges of its clients. TIG's AI offerings include:

AI consulting: TIG helps clients identify and implement AI opportunities that can enhance their business performance, efficiency and competitiveness. TIG provides end-to-end AI consulting services, from strategy and design to development and deployment.

AI solutions: TIG develops and offers a range of AI solutions that can solve complex problems and generate value for clients across different domains, such as healthcare, education, finance, retail, manufacturing, energy and more. TIG's AI solutions include natural language processing, computer vision, machine learning, deep learning, data analytics and more.

AI platforms: TIG creates and operates AI platforms that can enable clients to access, manage and integrate AI capabilities into their existing systems and workflows. TIG's AI platforms are cloud-based, secure and user-friendly, allowing clients to leverage the power of AI without investing in costly infrastructure or resources.

AI research: TIG conducts and supports AI research that can advance the state-of-the-art in AI and contribute to the scientific and social progress of humanity. TIG collaborates with leading academic institutions, research organizations and industry partners to explore new frontiers and applications of AI.

CORPORATE RESPONSIBILITY

As a responsible corporate citizen, we actively engage in corporate social responsibility initiatives. We support community development projects, promote education and skills development, and contribute to environmental conservation efforts. We prioritize the safety and well-being of our employees and strive to create a diverse and inclusive work environment.

TIG we are committed to making a positive impact on society and the environment. We actively engage in corporate social responsibility initiatives, including community outreach programs, education and awareness campaigns, and partnerships with local organizations. We prioritize the health and safety of our employees, promote diversity and inclusion, and strive to create a culture of sustainability and responsibility.

With a prominent presence spanning Asia, Middle East, Europe, and America, TIG delivers unparalleled expertise across a diverse range of sectors. Harness the power of our vast portfolio and strategic partnerships to propel your business to new heights!
